

Latin America is a young region, where Brazil, Peru and Chile are the most attractive countries for investment in electrical projects and developments. In addition, energy security is a worrying issue which could be resolved with energy integration models, like the hydro-electrical mega-plants like the ones Belo Monte have been developing. On the other hand, the NCRE has begun to be shown as an increasingly more valid option. It is expected that these cover up to 15% of Latin America's demand in the next ten years, with wind being the type of energy with greatest possibility of growth in Uruguay and Chile. Fourteen delegations confirmed among businessmen, academics and policymakers countries.

General Program

Tuesday 25	Wednesday 26	Thursday 27	Friday 28
Block 1. Energy Situation and Status	Block 3. About the Energy Promotion	Block 5 Micronetworks with Renewable Distributed Generation	Block 7 Distribution Grid with Renewable Energy
Block 2. Environment, Energy and Communities	Block 4. R + D + i in NCRE and Energy Efficiency	Block 6 TIC's in Electric Grid	

Why go?

- **Energy Status and Situation:** Chile's new energy agenda marks a key period in which the future of the country's energy matrix and new rules for the game will be decided, opening up great opportunities for investments in the sector. Key terms: Energy Efficiency, LNG, Thermo-electricity, transmission, distribution, NCRE.
- **Surrounding Development of Energy:** The challenges of financing have made it necessary to identify the players and the new trends in order to take advantage of the liquidity of global investors. Key terms: multilateral agencies, banks and investment funds, M&A, capitals market, Public Financing Tools.
- **Environment and Communities:** The new trends of the industry, through a complete analysis of how to incorporate early the opinion of the communities and take care of the social and environmental sustainability of the projects. Key terms: NCRE, energy efficiency, Foundations, Communities, Indigenous Peoples.
- **The thermo-electrical and NCRE projects that are coming:** Billions of dollars will be invested in electricity generation in Latin America. In the plans, thermo-electrical projects stand out, especially natural gas and NCRE. Key terms: LNG, solar energy, geothermal energy, wind energy.
- **R+D+i and Energy Efficiency:** Researchers from prestigious National and Foreign universities will present the latest in technological developments related with Energy Efficiency and NCRE. Key terms: sustainable habitat, biomaterials, photovoltaic cells, LED, generators.
- **Networking and brand positioning:** The opportunities for networking can be taken advantage of by directly sharing time with decision makers and the most important players of the industry. In addition, as a sponsor, your brand will be present from the marketing campaign onwards, until the event itself.

Ask for **SOCIAL SPONSORS**, contact your commercial executive, calling +56 9 8235 6266 or by sending an e-mail to info@biobioenergia.cl

GOLD CATEGORY

VALUE: US\$5,400 + VAT

- Inclusion of corporate logo on the Media Plan and the Congress' promotion material;
- Participation of a Speaker in the Congress' program;
- 4 VIP official invitations for the inauguration, with the presence of the executive level;
- Corporate presence in the congress area with a Roller Banner for sales assistant;
- Access for two people to the exclusive VIP room;
- Use of the VIP Business room, reservation beforehand subject to availability (max. one hour);
- Projection of corporate video in the spaces destined for coffee service;
- Incorporation of the sponsoring company's image on the presentation screens inside the room
- Provision of promotional material to all those attending the event
- Promote the company's office logo on Banner Slide of 984x257 pixels on biobioenergia.cl website
- 20 open invitations to enter the congress
- 40% discount in congress registration

SILVER CATEGORY

VALUE: US\$2,700 + VAT

- Inclusion of corporate logo on the Media Plan and the Congress' promotion material;
- 2 VIP official invitations for the inauguration, with the presence of the executive level;
- Corporate presence in the congress area with a Roller Banner for sales assistant;
- Access for two people to the exclusive VIP room;
- Use of the VIP Business room, reservation beforehand subject to availability (max. one hour);
- Projection of corporate video in the spaces destined for coffee service;
- Incorporation of the sponsoring company's image on the presentation screens inside the room
- Provision of promotional material to all those attending the event
- Promote the company's office logo on Dynamic Slide of 212x221 pixels on biobioenergia.cl website
- Corporate logo on work folder which will be given to all those attending
- 10 open invitations to enter the congress
- 20% discount in congress registration

BRONZE CATEGORY

VALUE: US\$900 + VAT

- Inclusion of corporate logo on the Media Plan and the Congress' promotion material;
- Incorporation of the sponsoring company's image on the presentation screens inside the room
- Promote the company's office logo on 212 pixel Banner on biobioenergia.cl website
- 5 open invitations to enter the congress
- 10% discount in congress registration
